Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>1. Impairment of financial assets including write-offs using Expected Credit Losses (ECL) model</p> <p>As described in the notes to the standalone financial statements, the impairment losses have been determined in accordance with Ind AS 109 Financial Instruments requiring considerable judgment and interpretation in its implementation, which also involved significant judgement by management in measuring the expected credit losses. Key areas of judgment included: Determining the criteria for a significant increase in credit risk ('SICR') Techniques used to determine the Probability of Default (PD) and Loss Given Default ('LGD') Further, the economic and business consequences of the COVID-19 pandemic, significant social disruption and disturbance and slowdown of economic activity, can have possible implications on the judgements and estimates used in the measurement. Assumptions used in the expected credit loss model such as the financial condition of the counterparty, expected future cash flows etc.</p>	<p><u>Principal Audit Procedures</u></p> <p>We assessed the appropriateness of the Company's policy on Expected Credit Loss recognition on financial instruments with reference to the applicable accounting standards. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing: We evaluated and tested the design and tested the operating effectiveness of Company's controls over the data used to determine the impairment reserve, internal credit quality assessments and methodology followed for computation of ECL. For Expected Credit Losses computed by the management, we performed the following procedures: Assessed the reasonableness of assumptions and judgement made by management on model adoption and parameters selection; Examined the key data inputs to the ECL model on a sample basis to assess their accuracy and completeness; Evaluated and tested on sample basis the appropriateness of staging including determination of significant increase in credit risk. Assessed the Company's methodology for ECL provisioning, Classification and Measurement; We analyzed and understood results of stress tests performed in the provisioning considering the overall impact on the estimates used for ECL estimation of financial assets on account of the COVID-19 pandemic. We enquired with the management regarding significant judgments and estimates involved in the impairment computation and additional management overlay provision arising from the effects of the COVID-19 pandemic, and evaluated the reasonableness thereof.</p>

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information in the Management Discussion and Analysis, Board's Report including Annexure to the Board's Report and Corporate Governance but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of

assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements:

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related

disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE ‘B’ TO THE INDEPENDENT AUDITORS’ REPORT

Report on the Internal Financial Controls with reference to the aforesaid Standalone Financial Statements under Clause (i) Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

(Referred to in paragraph (2) (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our Independent Auditors’ Report of ABC GAS (INTERNATIONAL) LIMITED on the standalone financial statements for the year ended March 31, 2022)

We have audited the internal financial controls over financial reporting of **ABC GAS (INTERNATIONAL) LIMITED** (“the Company”) as of March 31, 2022 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company’s internal financial controls with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to Standalone Financial Statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable

assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements .

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company has uniformly applied the accounting policies for the periods presented in these financial statements.

The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". - 2.5 **Use of estimates and judgements** The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the note 3 of the financial statements.

Note 3- Significant Accounting Policies & Judgements**3.1 Property, Plant & Equipment**

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives.

The assets' residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

3.2 Intangible Assets

Intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the intangible assets. Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured. Computer software are capitalized at the amount paid to acquire the respective license for use and are amortized over period of useful lives. The assets useful lives are reviewed at each financial year end. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognized.

3.3 Capital Work-In-Progress

Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

3.4 Employee Benefits

Short term employee benefits are recognised as an expense in the statement of profit and loss of the year in which the related services are rendered. Post employment and other long term employee benefits are charged off in the year in which the company paid for the same. The company follows a policy of accounting for gratuity as and when it is paid and doesn't get the actuarial valuation done. The company does not have any defined contribution plan.

3.5 Foreign Currency Transaction

- i. Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the date of the transaction.
- ii. Monetary Items denominated in foreign currencies at the year end are restated at year end rates. In case of those items, which are covered by forward exchange contracts, the difference between the year end rate and spot rate on the date of the contract is recognized as exchange difference and transferred to dollar hedge account as on the date of Balance Sheet and the premium paid on forward contracts has been recognized over the life of the contract.
- iii. All other exchange difference are dealt with in the profit & loss account.

3.6 Investments

Long term investments are stated at cost. Provision for diminution in the value of long term investment is made only if such decline is other than temporary in the opinion of the management. The carrying amount for current investments recognized in Financial Statements is the lower of cost and fair value. Any reduction to fair value and any reversals of such reductions, in case of these Current Investments, are included in the profit and loss statement.

3.7 Inventories

Inventories are valued at lower of cost and net realisable value. Cost includes all charges incurred for bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. Cost of Finished goods include appropriate proportion of overheads and, where applicable. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

3.8 Revenue from Contract with Customers:

Revenue from contract with customers is recognised when control of the goods or services are transferred to the customers at an amount that reflects the consideration at which the company expects to be entitled in exchange for those goods or services. The company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customers.

Sale of Goods: Revenue from sale of goods is recognised at the point in time when control of the goods has been transferred to the customer, generally on delivery of the goods and there is no unfulfilled obligation that could affect the customer's acceptance of the goods. The company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the company considers the effects of variable consideration, and consideration payable to the customers (if any). Sales are recorded net of duties and taxes adjusted for discount and after deducting returns, discounts and claims.

Dividend Income Dividend income from investments is recognised when the Company's right to receive is established which generally occurs when the shareholders approve the dividend.

Rent Income Rent income is included in other income in the statement of profit or loss. Rent Income mainly include Rent from Godown which is recognised on accrual basis.

3.9 GST paid on acquisition of assets or on incurring expenses: Expenses and assets are recognised net of the amount of GST paid, except: • When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority (Ineligible input credit) , in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable. • When receivables and payables are stated with the amount of tax included. • The net amount of tax recoverable from, or payable to, the taxation authority is included as part of "Other Current Assets" or Other Current Liabilities , as the case may be, in the balance sheet.

3.10 Taxation

Tax expense recognized in Statement of Profit and Loss comprises the sum of deferred tax and current tax except to the extent it recognized in other comprehensive income or directly in equity. Current tax comprises the tax payable or receivable on taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Current tax is computed in accordance with relevant tax regulations. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received after considering uncertainty related to income taxes, if any. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets are recognised on unused tax loss, unused tax credits and deductible temporary differences to the extent it is probable that the future taxable profits will be available against which they can be used. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and

liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). **Current and deferred tax for the year** Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3.11 Provisions, Contingent Liabilities, Contingent Assets and Commitments:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

3.12 Borrowing Costs

Borrowing costs comprises of interest and other costs incurred in connection with the borrowing of the funds. All borrowing costs are recognized in the Statement of Profit and Loss using the effective interest method except to the extent attributable to qualifying Property Plant and Equipment (PPE) which are capitalized to the cost of the related assets. A qualifying PPE is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Borrowing cost also includes exchange differences to the extent considered as an adjustment to the borrowing costs.

3.13 Impairment of Assets

An asset is considered as impaired when at the date of Balance Sheet, there are indications of impairment and the carrying amount of the asset, or where applicable, the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the net asset selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognised as an impairment loss in the statement of profit and loss. The impairment loss recognised in the prior accounting period is reversed if there has been a change in the estimate of recoverable amount. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life.

3.14 Financial instruments – initial recognition, subsequent measurement and impairment:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets

Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.

Subsequent measurement**Financial assets carried at amortised cost (AC)**

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. For trade receivables and other financial assets maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

b) Financial Liabilities**Initial recognition and measurement**

All financial liabilities are recognized at fair value.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

Impairment of financial assets**Trade receivables**

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of trade receivables.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or

effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety to the extent that there is no realistic prospect of recovery. Any subsequent recoveries are credited to impairment on financial instrument on statement of profit and loss.

3.15 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.16 Current and non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle, b) Held primarily for the purpose of trading & manufacturing. c) Expected to be realised within twelve months after the reporting period, or d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle, b) Held primarily for the purpose of trading, & manufacturing. c) Due to be settled within twelve months after the reporting period, or d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

3.17 Earnings per share:

Basic earnings per share is computed using the 'net profit for the year attributable to the shareholders and weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed using the 'net profit for the year attributable to the shareholder and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.18 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Information about Significant judgements and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

Property, plant and equipment and Intangible Assets

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per Schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

Contingencies

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

Fair value measurements and Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Recoverability of trade receivable

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

Provisions

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

NOTE 32- (A) Special Additional Duty paid Rs. 16,81,926/= before applicability of GST Act i.e. 01/07/2017, was eligible for input credit under GST subject to certain return filing compliances under GST Act, But same compliances under GST Act are not yet done but credit of Rs. 16,81,926/- of Special Additional Duty paid is taken in previous years under GST and Rs. 16,81,926/- used for payment of GST in previous years. In our opinion, this matter will be raised before GST Authorities, Input credit is eligible, non compliance is only in relation to filing of specific Return before date specified for that and hence at the time of GST assessment and or GST Audit, matter will be put up and hence no provision is made for any liability.

NOTE 32- (B) MVAT and CST assessment assessment order and demand notice of financial year 2013-14 received by the Company during the previous year is under review. As per order MVAT liability of Rs. 1,96,425/- and CST liability of Rs. 2,60,924/- determined, time limit for filing appeal against these demands is already expired. As in our opinion liability is disputed but not challenged by us by filing an appeal before higher authorities of Sales tax. But now immediately the necessary action will be taken in relation to this and hence no provision is made in accounts for any liability.
